## Preface

This system is so incredibly accurate! At first glance, **this name analysis system** appears to be very similar to numerology. However, this is not the case. Numerology provides useful information, but cannot be used to accurately create, change or modify your names. Many people have tried and failed, some got lucky and some created disastrous consequences.

**This system** is very different and probes much deeper. **It** shows how you are the unique blend of all your names and goes further by explaining how individual letters from your names affect events for each and every year of your life. **This name analysis system does** enable you to accurately create, change or modify names with balanced personalities and create a positive events chart opening doors that bring health, happiness, love and success into your life at predetermined years.

*"I've studied astrology and numerology for 20 years and this is the first time I've seen this ancient method used. It's much more accurate than both those practices combined utilizing not just the full name or prior names but also mother's maiden name. I read the book and had a name analysis session with Lyon and I was amazed at how accurate the results were. It showed why certain years of my life were always met with turbulence just from the placement of a few unfortunate letters. After I saw the prediction for the next couple years, I've decided to change my name with the help of Lyon in private sessions. So glad I found this method!"*

*"I've read 3 numerology books, and have a level 1 certification in numerology. This book is the best. When I worked out my charts it was so accurate it was almost scary. I feel like I want everyone in the world to read this book, and work out their name meanings. This system is not*

*really numerology but a new, accurate system of understanding personality. The author clearly and easily explains the system."*

## Introduction

My life, though far from tragic, was a rollercoaster ride with constant unexplainable ups and downs. I came from a stable middle-class family. My abilities got me into one of England's best schools. I was a grade A student and sports athlete of the year before becoming a drop out in my early teens.

I always worked for myself, which financially made matters worse. Had I been employed; I might have simply lost my job. However, being self-employed and running my own business with big bank loans, I went bankrupt, no less than three times.

The first time was at the young age of twenty-four when a night club I opened failed due to unusual circumstances beyond my control in the second year. Later, when the recession hit in the late 1980's, I was riding high with my car sales business. My competitors were failing and I was succeeding. I was good at what I did, but I can remember at the time thinking, why am I doing so well? It would be years later when I discovered this name system and realized how positive letters in my events chart were aiding my success. I sold my business at the end of 1991 and I took a year off. Early in 1993, I tried to get back into business. Every venture I tried for the next three years failed abysmally. However, as usual, I bounced back. The next eleven years I was riding high once again, and then, yes, you guessed it, back down to nothing. People who knew my capability and devotion to my work could not understand why? I too could not understand why!

Outside of work, my personal life and relationships were also a roller coaster ride. Looking back, there are many times I can reflect and say I was a total ass. I was unpredictable, caring one day, yet selfish and dishonest the next. I was usually very extroverted, but sometimes very introverted. In today's world I would have

been designated bi-polar and put on strong medications. Confused with my personalities, I began drinking heavily as a teenager which brought some temporary comfort. In my mind, I was a “social drinker”. I would work hard by day and drink hard by night. Like most people, I truly believed I was normal. We all think it is the other guy who needs a shrink, until the *reality* sinks in.

I went through a massive spiritual growth in the nineties, but in 2010, I was still looking for answers. My daughter told me of a man in England who analyzed names. Desperate, I thought I had nothing to lose. Sure enough, most of my troubles were revealed. Reading the events in my life created by the revolving letters from each of my names was a slam-dunk. My first name then was Paul. The letter U represents loss. It lasts for three years each time it revolves within the cycle. Sure enough, every bankruptcy was timed exactly to the re-occurrence of this letter. I had three years of loss followed by eleven years of power success and advancement influenced by the P, A and L. This does not mean that everybody with the name Paul will follow the same pattern. Letters from your other names must be factored in because they can alter the end result dramatically. I had another letter U in my surname which coincided with the first U exaggerating the loss. Another time the U aligned with the letter O which represents money and stability, in my case loss of both money and stability.

At first, I was not totally convinced by the readings for my personalities, but this was due to the fact I was still in denial. On reflection, the readings were very accurate.

Empowered by this incredible but little-known name system, I knew I had to take it to the next level and share this secret with the world. At first, I connected with the analyst my daughter introduced me to, Laurence Payg, but when I discovered his source, the 1929 book by Veolita Parke Boyle, it took me to new levels. I set about creating my new names, keeping my strengths and removing all my weak areas. Within three weeks of legally changing my names, the desire for alcohol faded to the point where I no longer wanted that buzz. After three months I could enjoy a couple beers but did not have an alcohol problem. The bi-polar problems disappeared quickly and generally I began feeling more stable and content. Health, happiness and success came into my life and has never faded since taking my new names. Friends and family noticed changes within my persona for the better as the months and continued as years passed by.

After three years putting in hundreds of hours of practical experience and study on this name system, I completed my fully instructional two-hundred-page book on name analysis.

Now, I help change the lives for people who are interested and open to discovering a wonderful secret, just as I did. Your names influence your life, for better or worse. Name analysis using this incredible system shows you how, why and what you can do.

## What Does Your Name Say About You?

More amazingly, letters from each of your names rotate at predetermined years, influencing events and the way you live your life. Incredible, accurate and true!

Why do some people appear to live happy stress-free lives while others do not? Why is it some years you try so hard but can't seem to get ahead? What can you do about this?

If your life or the life of a loved one has not gone the way you had planned, and conventional self-help methods have not met your expectations, many answers can be found within the combination of your documented names. Name analysis can guide you to live a better life!

## Is Name Analysis for You?

This Name Analysis system makes it easy for you to understand who you are and why you behave the way you do. It shows you how to make changes in your life, big or small, and it shows you how to create a balanced name to give you or your child the best opportunities in life. (Yes, name analysis can give your child a head start to a good life!)

For most people, the awareness provided by name analysis is sufficient to make the necessary adjustments to enjoy a better life. Some people decide to change their name. Sometimes changing just one name, the way you spell a name or adding an initial can make a huge difference!

There are many factors that come together to create, develop and influence your personality. A starting point is your date, time and place of birth. Other factors include your environment, parents, family, education and upbringing. Karma, especially past life Karma, and any inspirational mentors all play a role in making you the person that you are today. Even your diet - what you eat and drink - affects your development both mentally and physically. **However, once you have done a name analysis to your name, you will see that what most accurately defines you can be linked directly to your names.**

Name analysis is not a hokey pokey theory; it is not numerology. This name analysis system was used in ancient times by enlightened families to name their children so that they could live prosperous, happy and healthy lives. Name analysis is several thousands of years old and was, for the most, kept a secret.

When you see for yourself how accurate this system is, you will understand why it has been kept under wraps.

---

*"You really blew me away today. I would never have known that names affect the way your life pans out. Really amazed!"*

**- Wendy Sharon Hall**

Name analysis can be very helpful when choosing a name for your baby boy or girl and helpful for those seeking self-help or self-improvement, including physical and mental health. This name analysis system covers all names, first names, middle names, surnames, family names and baby names.

Name analysis can be useful if you study psychology, psychotherapy or any project related to human behavior. It is also interesting if you are studying etymology.

*"I had the pleasure of Lyon's assisting me with my name and shedding light on its strength and weaknesses. Lyon is highly knowledgeable and he is passionate about his work. I gained a lot of insights from his wisdom and thorough analysis of my name. All the best to you in your life journey and those who cross your path."*

## Where Does This System Originate From?

**Analyzing names can be traced back several thousand years.** This knowledge was originally known and used solely by the enlightened families of Egypt, the Chaldea and Hebrew countries in the Middle East. Affluent families used it to name their children to enjoy a prosperous, happy and healthy lives. The system was, for the

most part, kept a secret. When you see for yourself how accurate this system is, you will understand why it has been kept under wraps.

On the day a child was born to one of these affluent families, calculations were made using this analysis system and a name was created for the baby specifically to improve the qualities of that child's life. More recently, some 3000 years ago, this system found its way to China. It was in China that this knowledge was recorded and preserved in its splendid entirety, known as the "The Way of Life." A much more complicated version can be found in the Indian Vedas and in the Hebrew Cabbalas. More recently, the great hieratic papyrus known as the "Book of the Master of the Secret House" was found in Egypt and is preserved at the library of the Louvre in Paris. A copy was translated and published by W. Marsham Adams in 1898.

In 1929, a compilation of all these scripts was written and published by Veolita Parke Boyle as a book called *The Fundamental principles of Yi-King Tao, the Cabbalas of Egypt and the Hebrews*. Both Veolita and her sister, Elvrita, devoted their lives to the study of names, based on the Chinese "Sacred Science of Vibration". Unfortunately, back then, almost a century ago, her book received little recognition. People were a long way from the New Age and many regarded her book as nothing more than superstition.

Some 50 years later, a gentleman in England, Laurence Payg, came across a copy of Veolita's book in the late 1980's and quickly became a well-known name analyst using the basic principles of this system. Laurence passed away in December 2014. He was perhaps best known for changing the name of aspiring model Laura Hollins to Agyness G. Deyn. One year later she was voted Model of the Year 2007 and became the face of Armani and Burberry. Laura was already signed to London Agency Models One. Absolutely nothing else about her circumstances changed. She stayed with the same agency, kept her hairstyle, her look and yet her life and career skyrocketed soon after her name change.

I was introduced to Laurence in 2010 and immediately became fascinated by the accuracy of this system. I studied with Laurence and also obtained a copy of Veolita's book. I was fortunate that a good friend was able to translate the Yi-King proverbs bringing new light to an already incredible book. Then, with this new information I was able to crack a secret numerical code, almost like it was left

there intentionally for me to discover. This code enabled me to take the system to new heights by understanding how specific name and letter combinations can aggravate a long list of mental and physical health concerns from lungs, breathing, heart, throat, brain, liver, gall bladder, growths, tumors and cancer to ADHD, stress, anxiety, phobias, suicidal thoughts, introvert/extrovert and bipolar conditions.

## How Does It Work?

**This simple name analysis mathematical formula can be used by anybody with basic skills to calculate a person's character and life events.** In a nutshell, there are 64 personality types dividing the human race, just as there are 64 fundamental forces that constitute the action of the Universe. You may have seen the numbers 1 to 64 before. There are 64 codons that make up human DNA. There are 64 hexagrams in the I-Ching and there are 64 squares on a chess board. 64 is recognized as a powerful mathematical force. Numbers are selected for each letter in your name, then added together to calculate which of the 64 personality types you have for each one of your names.

Any one name, for the most, is good. Just as you can touch any one key on a piano and it will sound good. When you press two or more keys at the same time or play with two hands, it is important you press the right keys. If you press the right combination of keys, you produce beautiful music. If you press the wrong combination of keys, at best you are out of tune, or at worst, you make a dreadful noise. Your names apply a similar action.

**Each name has two personalities.** I call these primary and undertone. Each name you have is the result of both these personalities. In turn, you are the combination of the personalities from all of your names. This goes further to include your mother's maiden name and the number of the day you were born. Every one of us is the combination of at least 7 personalities, or 9, if you have a middle name.

You can see how by a quick mathematical calculation you are one in 500 million or one in 200 billion if you add a middle name. Similar to the odds of two people having the same DNA, this system is incredibly accurate and unique to you.

**This system is so incredibly accurate!** At first glance, this name analysis system appears to be very similar to numerology. However, this is not the case. Numerology provides useful information, but cannot be used to accurately create, change or modify your names. Many people have tried and failed, some got lucky and some created disastrous consequences. This system is very different and probes much deeper. It shows how you are the unique blend of all your names and goes further by explaining how individual letters from your names affect events for each and every year of your life. This name analysis system does enable you to accurately create, change or modify names with balanced personalities and create a positive events chart opening doors bringing health, happiness, love and success into your life at predetermined years.

## How Can You Benefit from Name Analysis?

This system will enhance the quality of your life.

**When you understand all of your names, if a negative part of your personality or certain letters bring negative events into your life, you can make advance plans.** You can change, overcome or reduce these potential problems. Self-awareness and understanding oneself, is sometimes enough to enable you to make the necessary corrections, with positive attitude and positive visualization. This system helps you to know where and when to focus your time, your effort and

resources to obtain the maximum results. This system will not tell you which lottery numbers to play. However, it will give you an accurate weather forecast. Knowing which years to carry an umbrella or take your sunglasses help you to lead a happier, more productive life

Each of the 64 personalities have one of 9 health advisories, physical and mental. If any of these advisories repeat two or especially three times in your names it will influence a weakness in that area. If certain letter combinations appear in your chart, it can aggravate these conditions for as long as those letters are in force. Simply changing your lifestyle, especially what you eat and drink, can be enough to compensate and bring balance into your life.

## Name Analysis is the Missing Link

There are hundreds of renowned and respected self-help gurus. Many have written or produced excellent books. They mostly point in the same direction. Positive speaking with positive thinking reinforced by positive visualization will improve your life. Books like *The Secret* by Rhonda Byrne, gained huge worldwide attention. Best sellers like *The Richest Man Who Ever Lived* by Steven K Scott takes a more religious approach by relating to the biblical Book of Proverbs. My favorite is a book that was first published in 1963. *The Power of Your Subconscious Mind* by Dr. Joseph Murphy, more recently revised by Dr. Ian McMahan. Many people have gained from these books, yet so many have failed. Why?

If you have names with negative tendencies leaning towards anger, anxiety, doubt, hesitation, fears or phobias, this will most surely restrict your potential and slow or even stop your progress. If you have negative letter combinations in

your events chart, it will delay or block your advancement during the years those letters are working against you. The more negatives you have, the more difficult it is to get ahead. **If you have tried self-help methods and failed, it was probably not for lack of trying. It is most likely your names, or the letter combinations you were in at that time, prevented you from reaching your goals.**

## Name Change Can Alter Your Life

**Two examples where changing your name can alter your life is evident in the world of entertainment and marriage.** Movie stars and popular musicians are a good example of what can happen when you change your name. How many struggled to achieve fame, until they chose the right name. Were they less talented before choosing their new name? I doubt it!

In many countries, women take the family name of their husbands upon marriage. Sometimes, the new name can blend well and improve life for the better. Unfortunately, it can also have the opposite effect. How often have you heard of couples living together, happy for many years, but break up soon after marriage? Name analysis shows how, in many cases, it was the name change that altered the dynamics for the worse. Statistics show the divorce rate in England and the USA is around 50%. Yet in Central, South America and China, where women do not take the family name of their husbands, divorce rate is 5%.

## Change Your Name

**You cannot change your date, time and place of birth, thus changing your astrological chart.** However, one of the few things you can change about yourself is your name. Changing your name will change your vibration, which can turn your life around for the better. Sometimes changing just one name, the way you spell a name, or adding middle initials, can make a huge difference.

Like a new custom-made designer dress or suit, it will change the way you feel about yourself and the way other people see you. Doors will begin to open, improving your life, with love, health and happiness. Your piano will play the right

combination of keys, producing beautiful music to be heard by you and the people who surround you.

**My research shows when you commit to changing your name, the effects begin immediately and increase with every document you change. The more you want it, the faster it happens.** I have witnessed some people experience a rapid transformation with their life quickly taking a new direction, becoming calm, more focused and more positive in the way they think, speak and act. A balanced name with positive letters has no obstacles and sets you free. Self-help techniques will begin to work, bringing out the positive qualities in your astrological chart. You will grow and develop, taking better control of both your life and your future.

---

*"What a difference!*

*"I want to thank you for making such a big difference in the life of my daughter, now Casey. What a difference I have noticed in her happiness quotient and attitude toward her future! I am indeed fortunate to have such a bright and dedicate-to-learning daughter and you brought out the best in her. She no longer has such a difficult life and her four siblings and family are most enthusiastic about that! "*

**- Nancy P. 2018**

*"My daughter Casey is such a different person now, a year after changing her name. She is confident, balanced, thoughtful and kind! I can't thank you enough! 🙏😊 I always knew she had those qualities deep down inside, but it took a name change to bring them out in her. You are amazing! 😊"*

**-Nancy P. 2019**

## Baby Names

By now, you are beginning to understand the importance of choosing the right name for your baby to give him or her the best possible start and opportunities in life.

Creating a balanced personality for your baby is fun, challenging and so rewarding. You must first start by calculating the family names of both the mother and father and then decide upon a name or names that add a vibrant combination. Be open to spelling variations. Amy, Aimee or Amie?

A good way to start is to take out a Scrabble set and play with the letters to find a name or even create a unique name. Always look for positive letters or consider using single letters as an initial for one of the middle names like I did for myself, especially if your family names lack these.

Creating a positive name for a newborn can be a wonderful gift for life!

## Famous Names

Celebrities often change their names for the benefit of their careers. What do they know that we don't know?

Below are three celebrities for which brief overviews of name analyses are provided: Miley Cyrus, George Clooney and Anne Hathaway.

The 33 she had from Destiny was very reserved, bordering on introvert. The 26 she had from the name Hope was friendly but reserved and secretive.

The letter P is very positive putting one in a position of power which kicked off her career in 2006 when she was cast as Hannah Montana.

2010/11/12 were not her best years due in part to the negative letter combinations E, R and U, however, she bounced back on top coincidentally at the same time as the Y for success came back into her chart.

The letter Y is Very Positive. It brings success to all areas of your life. Y gives safety on or around water and for travel. The letter Y is good for health and aids recovery if there is sickness.

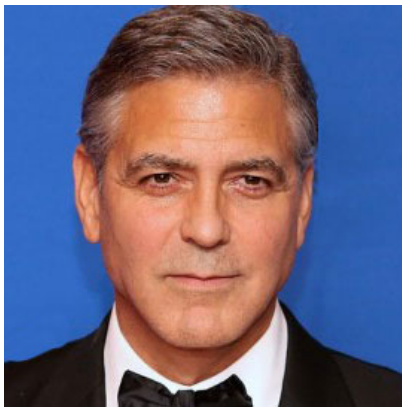

Miley has a long succession of positive letters in her chart, especially multiple letters Y right through until age 34. (The letter Y has no doubt helped her father

Billy Ray Cyrus over the years.)

### **Wikipedia says about Miley Cyrus:**

"Cyrus became a teen idol for her portrayal of the starring character Miley Stewart in the Disney Channel television series Hannah Montana in 2006. The record industry began cultivating a maturing image with her with Time of Our Lives in 2009. In 2010, she released her third album Can't Be Tamed, which stands as the lowest-selling record of her career, and starred in the coming-of-age film The Last Song. Cyrus focused on her acting career with several television and film appearances in 2011 and 2012. Her sexually explicit behavior generated widespread controversy while promoting her fourth album Bangerz (2013), her first under her recording contract with RCA Records. Cyrus' independently-released fifth studio album Miley Cyrus & Her Dead Petz (2015) deviated from her traditional pop style for more psychedelic experimentation. In 2016, she was announced as a coach for the eleventh season of the singing competition *The Voice*."

## Anne Hathaway

Anne's Name Basics

**Anne 16/20 Jaqueline 40/50 Hathaway 33/39  
McCauley 29/43.**

**Dob 12 Nov 1983.**

**(Shulman 25/38)**

Quite good balance of personalities but 16 and 29 produce too much mental nervous energy making her very sensitive to the chart variations. The 16 and 29 are very prone to worry, stress and anxiety when life does not go the way you had hoped and planned.

Compiled from Wikipedia: Hathaway spoke of her experiences with depression during her teenage years, saying that she eventually overcame the disorder without medication. You can see from the chart she was in letters E U H U, E E H U and E E H L from age 11 through 18. Anne quotes "When I was 11, I felt like I got a calling from God to be a nun." When in letters E U H U. In 2009, she stated that her religious beliefs are "a work in progress". Positive Times: 1999–2004: Career beginnings and breakthrough when in letters N and L for love and advancement, albeit, with some stress, striving from the letter H. Success came from the Y in 2004 but at the same time she experienced a negative relationship with Raffaello Follieri, while in letter W for wavering conditions, combined with the N for love. 2005–07: Transition to adult roles and success. N for love and Y for success. 2008–10: Continued success. N with double Y for double success. 2011–present: Critical acclaim and recognition. N and Y. Hathaway started dating actor Adam Shulman. The couple married on September 29, 2012, when N for Love came back into her chart.

In late November 2015, it was announced that Hathaway and Shulman were expecting their first child when double N came into her chart. Hathaway gave birth to a son, Jonathan Rosenbanks Shulman, on March 24, 2016 while in double N for double loving conditions. I cannot find evidence showing she has taken and is using her husband's name Shulman. If she is, it would add the negative letters H and U into her chart *from 2012, as shown on the very bottom line of the chart.*

## Name Reality, a Book by Lyon G. Payley Zonamyari

The laws of attraction are real. Your names can help, hinder or halt your progress!

**Name Reality**, the name analysis book by **Lyon G. Payley Zonamyari**, shows You How, Why and What You Can Do.

**Name:** a word that constitutes the distinctive designation of a person.

**Reality:** in truth, the here and now, the totality of actual things and events.

- ✓ **Name Reality** is a documented system that shows who you really are and why life has not always gone the way you planned.
- ✓ **Name Reality** shows why some of us appear to lead happy stress-free lives and others do not.
- ✓ **Name Reality** shows why some years you try so hard but cannot get ahead. This incredible system can be your turning point if you want to understand yourself better, need to improve specific areas of your life or want to create a new vibrant, healthy, successful, happy name for you or your baby.
- ✓ **Name Reality** shows why some of us appear to live happy stress-free lives and shows why some years we try so hard but cannot get ahead. This incredible system can be your turning point in understanding yourself better and to improving specific areas of your life.

**Name Reality** reveals how, from birth, your documented names create a blueprint that shapes and defines your character, your personality, both your mental and physical health, for better or for worse. More amazing, the letters from each of your names rotate at predetermined years, influencing the way you live your life. Your names can bring you success or failure, influence love, health and happiness. Parents can unknowingly name their kids for a life of bliss, fame and fortune or sickness, doom and gloom. One letter can make a huge difference. Ann. Anne. Anna or Ana. Name Reality shows which name balances best with your family name.

The combination of your names can be likened to a dress or suit, an outfit that you wear for life. It makes a statement. It says who you are and can influence the way other people see you. Your names, like your clothes, need balance. A great outfit can be ruined by the wrong pair of shoes or a goofy hat. Each letter in your name emits a frequency, like the keys on a piano. Play the right combination of notes and you have beautiful music. Play the wrong combination of notes and at best you are out of tune, or worst, you become a dreadful noise.

The sound of music produced by a piano can be documented with sheet music. The vibration produced by your names can be documented with *Name Reality*.

**So why has nobody told you this before?** If you have read anything about the laws of attraction, you will know it was a secret knowledge kept hidden from the public, known only to a few privileged families. Analyzing names, another fundamental principle action of the Universe, was also kept under lock and key for centuries. It was lost then found, swept aside and now again, rediscovered.

*"Thank you so much, Lyon for the name evaluation. I learned so much through this method that answered my questions that have gone unanswered for years. After the past few years of really bad luck, I am so glad to see the reason isn't me but my name. I was also able to see why certain years past have been difficult and painful for me. The good news is*

---

---

*my name is something I can change and I plan to purchase your services again in the near future. Many thanks and blessings for your work!"*

*- Jaime Edwards*

---

**The second part of *Name Reality* reveals how letters in your names change and rotate on your birthday.** Using the mathematical formula you can calculate a life chart showing which letters are active in what year. Every letter has a definition. Some are good and some are not so good. Again, it is the combination of these three or four letters, one from each of your names that dictate influences for that year of your life. For example; **F, H, U, V, W** and **X** can have a negative influence. **C, G, J, K, L, N, P, Q, Y** and **Z** tend to have a positive influence. Letters **A, B, D, E, I, M, O, R, S,** and **T** can swing either way depending upon the positive or negative from other letters active in the same year.

---

*"Throughout my professional years as a medical and homeopathic doctor, I have always known our names produce a vibration that reflects upon the conditions of our bodies. Until now, I have not been able to connect the two together, especially for patient diagnosis. The system Lyon has shown to me and demonstrated with the voluntary consent of my patients is conclusive evidence that the connection exists. Lyon was able to confirm medical issues that matched my diagnosis. In some cases, he added more information that was beneficial to both me and the patient. Lyon correctly quotes in his book, when conventional methods have failed to diagnose or cure a problem, this book can provide the missing link."*

*- - Dr. Tito Palacio MD, Naturopath and  
Homeopathic Dean of Clinical Studies  
Head of the Spanish Department  
at The British Institute of Homeopathy*

---

In addition to covering mental health, this system covers many areas of physical health, such as lungs and breathing, throat, brain, heart, liver and gall bladder to growths, tumors and cancers. Specific combinations of letters from your names can aggravate mental conditions like ADD, ADHD, bipolar, stress, anxiety and phobias to lack of confidence and suicidal tendencies! Introvert and Extrovert personalities are also covered in this system.

**Name Reality** has a chapter devoted to famous names. This page reveals interesting analysis of more celebrity names from the world of pop, rock, TV actors, movie actors and those who simply get their name in the news for good or bad reasons.

*Information used in these descriptions is taken from published reports in the media news. The author is not at any time intending to defame or slander any people nor create something that has not already been said previously on the internet or news by so-called reliable and supposedly reputable media sources.*

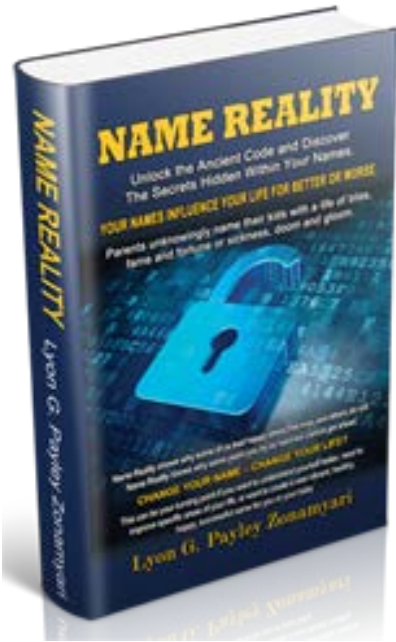

Names analyzed in *Name Reality* include Rihanna, Chris Brown, Tyler Perry, Simon Cowell, Tiger Woods, Catherine Zeta Jones, Michael Douglas and his incarcerated son Cameron, Britney Spears, Michael Jackson, Margaret Thatcher, Amy Winehouse, Russell Brand, George Best, Paul Gazza Gascoigne, Heath Ledger, Oscar Pistorius, O J Simpson, Lindsay Lohan, Charlie Sheen, David Duchovny, Tom Sizemore, Kendra Jade Rossi, Penny Flame, Jimmy Savile.

Lyon can provide an additional documented analysis processed at the same time as your personal analysis. The consultation will include cross reference discussing the charts for you and your partner.

*"I asked Lyon to prepare a full documented name analysis for me which was for the most very accurate. However, some of the indicated years of worry and stress in my chart was not so accurate. We discovered my soul-mate wife of 40 years, who has an incredibly happy and successful chart, had been absorbing some of my stressful times. Lyon said I did not need to change or modify my names, just to be aware when my chart goes into a temporary dip and let my wife know so she could give me moral support without draining herself. Incredible!!!"*

*"Modifying my names changed my life. My whole approach is so much more focused and confident.*

*I first heard Lyon in an interview with Lauren Galey. I was fascinated so decided to buy the book and have a session with Lyon. As it turned out my name had a lot of difficult aspects to it which explains why I have put a lot of effort into creating things in my life which would never usually eventuate, leaving me feeling frustrated and drained. I also always felt over sensitive to everything which made it hard to relax and to put myself out into the world - my name had an abundance of i's and e's which are not a great combination. So, I decided to change my name which was a simple process as I took on my married name and then changed my middle name to add in extra benefits and kept my first name. This was an easy solution that made a big difference. I have found that as time goes on and I change more and more documentation that my energy is changing. I no longer feel over sensitive and feel very calm in the world. As a result, I can function more clearly and am now in the process of creating the life I really want - which was something I really struggled with before. I am more able to express myself in the world and feel comfortable about creating a new business that I feel will be very successful as my whole approach is so much more focused and confident. I am very happy with the changes and enjoy my life so much more. It is definitely worth doing if you have a difficult name like I did. Thanks so much. Warm regards,"*

*"At first, I didn't want to get my name analysis done. I'm not sure if I was afraid of knowing the truth or that knowing the truth would interfere with my Soul's Mission. In fact, I consulted another healing expert before I said YES, just in case. She gave me the green light to go ahead.*

*“Now that Lyon has done my analysis, I'm just blown away. He's not just blowing smoke when he says this ancient system is accurate – it is VERY accurate! From the Personality analysis based on my name which pegged me as brilliant, creative, generous, determined, enduring, truthful, quick-minded and always striving with a tendency to care and give TOO much, to the Events chart which clearly showed that I got divorced and changed my name back to my maiden name just in the nick of time before more misfortune struck.*

*“The analysis is very in depth and much more useful than a psychic reading as I can see what my "fortune" will be like for the coming years. I'm so grateful that I'm in that fortunate 10-20% of folks who have a balanced name, but I can imagine that if I didn't, I'd want to know how to make compensations to stack the odds for positive manifestation. Like Lyon said, I'm not one of those people with a "dark cloud" hanging over me wherever I go, but if you ever feel this way, get your name analysis done STAT! If you're ready to manifest your dreams, get your name analyzed first before doing anything else. Why struggle? Highly recommended!”*

*"I want to thank you for a wonderful conversation that we shared yesterday. You had prepared my name analysis and called to discuss it. What meant a great deal to me was your initial correspondence and continued communication. You did exactly what you promised to do. It was incredibly respectful and thoughtful. We were off to a great start.*

*"The discussion was open, flowed with ease and was mutually engaging. The analysis itself was so accurate and insightful that it felt like I had known you for a long time. Life's moments are always the best when 'someone gets you!!' It's somehow liberating and suddenly clear - it all now makes sense. Thank you for that.*

*"Lyon, you made numerous suggestions as to how one could proceed - offering excellent book recommendations, mental exercises, powers of intentions and various healing practices. Your door was open for further considerations - if I was comfortable to do so. Additionally, you were in no hurry whatsoever!! That was a bonus. I look forward to continuing our exploration together. Your sincerity and guidance were deeply felt."*

## About Lyon

**Lyon G. Payley Zonamyari**

**Intuitive Naturopathic Holistic Healer**

**Professional Name Analyst Author of *Name Reality***

At an early age Lyon quickly discovered that conforming with conventional was not his path. He questioned our very existence when just eight years old and by age ten was experiencing premonitions. Why are we here? Where do we come from and what is this thing called life all about? With no help, guidance or information readily available at this time, long before the internet, Lyon became a rebel, lost without a cause.

Past lives and reincarnation fascinated Lyon for many years. The more books he read on the subject, the more he became convinced it was a reality. A sequence of events prompted Lyon to discover his past which led him to his first spiritual mentor Paulette, who specialized in healing and regression techniques. The incredibly advanced Paulette took Lyon way beyond past lives. When Paulette cleared his third eye and activated dormant DNA strands, Lyon discovered he could remove somebody's headache by touch in a matter of seconds.

Soon after, his second mentor Dianne, also at Oracle level, advanced his learning of energy and vibration linked to healing. Lyon's third mentor, a homeopathic intuitive doctor completed the circle of knowledge. Lyon advanced spiritually and became an accomplished healer, yet his personal life continued a dramatic roller coaster ride with unexpected events creating major disruption.

In 2010 Lyon diverged down a more scientific path linking energy and vibration to one's names that changed his life forever. This is not a new hokey pokey theory and this is not numerology. This documented system was originally used in ancient times by enlightened families to name their children for a prosperous

happy and healthy life. When you see for yourself how accurate this system is, you will understand why it has been kept under wraps.

Lyon is also the creator of Three Steps to Healing Happiness and Abundance and is also very active in the nutrition field, believing that what we eat can greatly impact living our lives to their fullest potential. See [namesdoctor.com](http://namesdoctor.com) for more information.
